**Choice Scholarship Program  
Getting Started: How Schools Can Participate  
2014-2015 School Year  
February 18, 2014**

- 1) Read through the materials at <http://www.doe.in.gov/choice>, especially the *FAQ for Schools* document as a starting point. These materials provide important background on rules and requirements for participating schools.
- 2) If your school is not currently accredited by the State Board or a Board-recognized entity, you must complete the appropriate process for accreditation. Accreditation is a program requirement (IC 20-51-1-4.7), and schools 'in the process of' accreditation will not be allowed to participate. For accreditation related questions, please contact the Department's Director of Accreditation, Dr. George Frampton, at [frampton@doe.in.gov](mailto:frampton@doe.in.gov) or (317) 232-9166.
- 3) Complete the school application process. Fill out the *School Application Form* and the *Special Education Assurance Form*. Please email these documents along with a copy of the school's 2014-2015 tuition and fees policy and proof of accreditation, if the school is not accredited by the Department, as a single pdf to [choiceschool@doe.in.gov](mailto:choiceschool@doe.in.gov).
- 4) Schools will be sent a letter when the Department approves their application and the school's name will appear on the Department's website as a resource for parents. The letter will include the next steps the school should take to fully enroll in the Choice Scholarship Program.
- 5) Review the following documents available on the Choice Website in preparation for submitting student applications:
  - *Student Eligibility Criteria*
  - *Household Income Limits*
  - *Income Verification Rules*
- 6) Be sure that your school has a lottery process in place; IC 20-51-4-3(c) says that if a school receives more Choice Scholarship applications for enrollment than spaces that the school has available, then the school shall hold a lottery of those students who met the criteria for admission. The preceding subsection states that a school shall apply its written admissions policy fairly and without discrimination (IC 20-51-4-3(b)). The Department interprets that these two provisions operate together such that:
  - A school may make its admissions decisions prior to and independent of the lottery. If a school's written admissions policy states that preference shall be given to church members, then the school may apply that policy so long as it is applied fairly and without discrimination.

- If, after offers of admission have been made to students according to the admissions policy, a school has more choice scholarship students who seek to actually enroll by the school's enrollment date than the number of spaces that the school has available, then the school shall hold a lottery.
  - If a lottery is held, the only students who may be excluded from the lottery process and given preference for enrollment are students who 1) have siblings enrolled at the school; or 2) students who attended the school in the prior year.
  - After the lottery date has passed, the school may continue to admit students via a first-come, first-served basis until desired capacity has been reached. However, 'first-come, first-served' implies that the school has first admitted any students who were part of the lottery pool that the school did not originally have room for.
- 7) Be sure that you have a means of quickly communicating with parents of students that are approved for a Choice Scholarship. Parents are required to complete distribution endorsement forms authorizing the Department to make the scholarship payment to the participating Choice School on the student's behalf.
- 8) Make sure that there are one or more points of contact available at the school who are familiar with the program. This is important for several reasons:
- Schools are required by law to "promptly" provide parents with their child's ISTEP+ scores. The State Board interprets this as one week from the date scores are sent by the Department, which is generally early June (ISTEP+) or July (ECA scores).
  - The volume of information is such that any staff turnover/transitions at the school could increase the possibility of a deadline being missed if the deadline falls within the transition.
- 9) Please maintain up to date contact information on file with the Department. If you would like a staff member to be added to the Department's notification list for program updates, WebEx sessions discussing program compliance etc., please contact [ChoiceSchool@doe.in.gov](mailto:ChoiceSchool@doe.in.gov), noting the email addresses that you'd like added to the list.
